

U. S. TO PROBE CAUSE OF FATAL BOMB EXPLOSION

Weeks Orders Investigation of Circumstances Surrounding Death of 5 and Injuring of 10.

NO BLAME OFFICIALLY FIXED

Examination Prior to Mishap Showed No Defect in Rack Blast From Propeller Believed to Have Released Explosive.

WASHINGTON, June 1.—A complete investigation of the circumstances surrounding the bomb explosion yesterday at the Aberdeen, Md. proving grounds, which resulted in the death of five persons and injury to ten others, was directed by Secretary Weeks today in orders to Inspector-General Chamberlain.

The investigation will begin immediately, as will one to be conducted personally by J. Maxwell Whitworth, assistant Secretary of War. Mr. Whitworth left here late today for Aberdeen to collect evidence. The military general, William, chief of Ordnance, had dispatched Major William A. Borden and Captain C. H. M. Roberts, to the scene to make an investigation and the commanding officer at Aberdeen had appointed a local board for the same purpose.

No Responsibility Fixed. Major Borden brought the first details of the disaster to the department today in an oral report to General Williams. While he did not accept responsibility for the responsibility in view of the advance investigations ordered for that purpose, he advanced a theory of the cause by ordinance experts as exceptional.

The plane had been loaded with four bombs. Major Borden said: "That on rack No. 1, at the right-hand end of the plane, had dropped from the rack once. An examination showed no apparent defect either of rack or bomb and the bomb was replaced. Then it dropped a second time. Meanwhile the motor had started and the airplane was being turned around. The blast from the propeller of the machine started the propeller of the bomb revolving.

Certain number of revolutions of the bomb's propeller release a spring, the rod or plunger. The propeller had apparently turned that point when the tail end of a piece of metal, attached to the tail of the airplane, swung around and struck the propeller on the bomb, a most extraordinary occurrence.

Plinger Released Bomb. "The plunger released bomb which was required to drive the plunger into the percussion cap attached to the fuse. The propeller had apparently turned to a point where the blow would have released the plunger. The explosion followed."

Safety devices on other three bombs prevented their discharge. In the opinion of the military experts they were within fifteen feet of the explosion.

DIVORCE HEARING DELAYED MRS. STILLMAN BEING ILL

TOUGHKEEPSIE, N. Y., June 1.—Hearing in the divorce suit instituted by Mrs. Stillman against her banker, against the former in bankruptcy, was postponed today until June 7 and 8.

The postponement was requested by counsel for Mrs. Stillman, who said she was ill at her home in New York, and that one of her attorneys could not take part in any proceedings this week because of other engagements.

COURT CLERK CHARGED WITH AUTO STEALING IS BONDED

ALBANY, N. Y., June 1.—G. A. Walker, clerk of the Superior Court of Lee County, Va., was arrested and brought here today on a charge of embezzling the operations of an alleged auto theft ring, later was released instead of \$1,000.

Two of the other five persons previously arrested in the case, A. O. Oliver and W. Griffin, are also out on bond, while the others, R. O. McDonald, M. J. Kidd and W. W. Lawrence, remain in jail.

A large number of cars alleged to have been stolen have been recovered by the Albany police.

Funeral of Valentine W. Watkins. The funeral of Valentine W. Watkins, who died last night, was held yesterday afternoon (Wednesday) at 2 o'clock, from Watkins undertaking parlor to the Watkins cemetery, conducted by the Rev. H. H. Shilders, pastor of St. John's Church, and was the only brother of Mrs. V. A. Christian, with whom he resided, and uncle of Hugh Christian, of Richmond, N. C. The funeral was held at the residence of Mrs. Christian, 1110 N. 11th St., at 2 o'clock.

RICHMOND LEADS STATE IN BUILDING

(Continued From First Page.) days, and dealers in plumbers' supplies report reduction of 25 per cent since January 1. Bricklayers report work enough to keep them busy, and there has been a slight increase in orders in structural iron and steel and for iron pipe. Paint and varnish dealers report a better feeling in the trade.

Richmond Leads Whole State.

Building activities in Virginia, as indicated by reports from the principal cities, show a conservative trend in building operations in April, 1921, as compared with April, 1920. Norfolk experienced a decided slump in April, 1920, 141 building permits were issued in that city for new structures, while only thirty-nine were issued in April, 1921. Staunton merely held its own, seven permits having been issued in April of both years.

Richmond leads the entire State in the number of permits issued for new construction, repairs and alterations, 137 the amount expended or to be expended in 1921. Mr. 120 permits were issued in April of this year, as against 119 in April of last year, but the value of new construction this year is \$618,672 as against \$776,456 in April of last year. The number of permits issued in April of this year, in Richmond for new buildings is 119, as compared with seventy-two in April, 1920; repair permits in the number of 120 were issued in the same month this year, as against 119 in April of last year, but the value of new construction this year is \$618,672 as against \$776,456 in April of last year.

Norfolk Has Largest Decrease. Norfolk's permits in April of this year for new construction called for an expenditure of \$154,657 as against \$42,252 in April of last year, and alteration permits in that city for April, 1920, amounted to \$49,334 as against \$11,579 in the same month last year. Norfolk's decrease is, therefore, 66.8 per cent, the largest recorded in the State.

The percentage column shows that the biggest gain was made by Lynchburg, although the amounts spent there in building activities is rather insignificant as compared with either Norfolk or Richmond. In April of this year, Lynchburg issued thirteen permits for new construction, as against six in the same month last year, and twenty-seven permits for repairs were issued this April as against fourteen in April, 1920. However, the total expenditure called for by the permits issued this year is only \$25,156 as compared with \$13,700 for new construction in April, 1920, while \$10,600 was spent on repairs this year as against \$1,650 in April, 1920.

Magie City Shows Increase. Roanoke issued 135 permits in April of this year for both new construction and repairs, as against eighty-five in April, 1920, for both. This year's permits call for an expenditure of \$217,700, as against \$189,945 in April of last year, making her percentage increase 29.2 over April, 1920, in the same month of last year, which accounts for the slump as shown in the percentage column.

But the bulletin notes a decided improvement in the housing situation throughout the Fifth Federal Reserve District, which includes Virginia, West Virginia, North and South Carolina, Maryland and the District of Columbia. The total number of permits for new buildings in April, 1921, was 1,688, as compared with 1,656 in April, 1920, an increase this year of 2 per cent, and the total estimated valuation basis for April of this year, \$13,594,875, as compared with a total of \$9,896,450 for April, 1920, an increase of 37.3 per cent in the estimated valuation basis in April of this year included twenty-one brick dwellings, forty-four frame dwellings and one twelve-family apartment house.

Food prices continue downward, though rather slowly, the bulletin says. Agricultural prices are gaining slightly and bank clearings are in line with new price levels. Wage adjustments are being made without reaction, farm labor is more plentiful and cheaper than a year ago, and business conditions generally continue to show improvement.

SUPREME COURT DRY RULING ANNULS OLD REVENUE LAWS

(Continued From First Page.) lower tribunal in holding that Congress "manifested an intention to tax liquor illegally as well as legally produced."

HOUSE PEACE RESOLUTION DIFFERS FROM KNOX PLAN

(Continued From First Page.) The resolution, after setting forth that the state of war "is hereby declared at an end" provides:

"That in making this declaration, and as a part of it, there are expressly reserved to the United States of America and its nationals, any and all rights, privileges, immunities, reparations or advantages, together with the right to enforce the same, to which it or they have become entitled under the terms of the armistice signed November 11, 1918, or any extensions or modifications thereof, or which were acquired by or are in the possession of the United States of America by reason of its participation in the war, or to which the nationals have thereby become rightfully entitled, or which under the treaty of Versailles (and in the case of Austria-Hungary under the treaty of German-Eu-Loye, or the treaty of Trianon), have been stipulated for its or their benefit; or to which it is entitled as one of the principal allied and associated powers; or to which it is entitled by virtue of any act or acts of Congress, or otherwise."

Green Trial Starts Today. The trial of Clarence Green, negro, charged with attacking a white woman on the Petersburg Turnpike a few weeks ago, will begin in the Chesterfield County Courthouse at 10 o'clock this morning. Judge Robert G. Southall will preside at the trial. The expanding of the jury is expected to occupy the greater part of the day.

The redefined measure, while placing certain restrictions around the use of wines in medicine, did not include the original provisions which would have outlawed wine as a medicine along with beer. It provides, however, for the limitation of alcohol withdrawals for medicine, and gives the commissioner authority, if he finds that any preparation is being used as a beverage to require a change of formula so that it would be rendered actually unfit for drinking.

Section Relating to Doctors. The section relating to doctors, which was virtually rewritten, follows:

"No physician shall prescribe nor shall any person sell or furnish on any prescription, any vinous liquor that contains more than 21 per centum of alcohol by volume, nor shall any one prescribe or furnish on any prescription more than one-fourth of one gallon of vinous or any liquor that contains more than one-half pint of alcohol for use by any person within any period of ten days.

"No physician shall be furnished with more than two prescription blanks for use in any period of thirty days, nor shall any physician issue more than that number of prescriptions within any such period unless on application therefor he shall

make it clearly apparent to the commissioner that for some extraordinary reason a larger number is necessary, whereupon the necessary additional blanks may be furnished him."

POLICY OF "FORCE WITHOUT STINT" IS PLANNED FOR ERIN

(Continued From First Page.) In, and what units are to be sent, are being closely guarded by the government. But undoubtedly the entire garrisons from Ulster will be sent South, joining with contingents from England, and replaced in the North by constabulary.

Irish Warfare More Efficient.

During the past few weeks Irish warfare has been developing rapidly into more highly specialized, and more efficient, methods of attack and defense on both sides. The government, for example, has brought into action a new armored car, especially designed to counteract Sinn Fein ambushes, and so constructed that it is able to maintain the danger from road mines, with which Sinn Fein has lately been living up the campaign.

A hundred of this new type of cars are already in Ireland, and six more are sent over every day. They are the last word in fighting automobiles. They carry almost a ton of manganese steel plate, and are as close to bomb-proof and bullet-proof as they can be made. Furthermore, for all

Deaths. JONES—Died at her residence, 514 East Main Street, at 4:30 p. m. June 1, Mrs. J. Jones, widow of Robert M. Jones, who died in the 22nd year of her age, after a long illness, by her brother, Mr. James H. Jones, and four sisters, Mrs. Alice Jones, Mrs. Henry G. Jones, Mrs. John H. Jones, and Mrs. Mary Magdon Jones. Burial in Mount Vernon, Richmond, and Mrs. William L. Lewis, of Sweet Springs, W. Va. Funeral tomorrow.

"No physician shall prescribe nor shall any person sell or furnish on any prescription, any vinous liquor that contains more than 21 per centum of alcohol by volume, nor shall any one prescribe or furnish on any prescription more than one-fourth of one gallon of vinous or any liquor that contains more than one-half pint of alcohol for use by any person within any period of ten days.

"No physician shall be furnished with more than two prescription blanks for use in any period of thirty days, nor shall any physician issue more than that number of prescriptions within any such period unless on application therefor he shall

make it clearly apparent to the commissioner that for some extraordinary reason a larger number is necessary, whereupon the necessary additional blanks may be furnished him."

The bill also would extend the dry law to Hawaii and the Virgin Islands, but not to the Philippines.
